BCC Research

ASKAI PLUS

31 Vetted External & Government Sources

Public data selected to make answers more useful and easier to validate.

AI **31**

VETTED SOURCES
external + government

- Economic data
- Life sciences
- Energy
- Trade & transport

Built to support sourced answers inside the BCC Research workflow

Use the BCC library as the research base, then add public data behind the question without leaving the answer. Live links take you directly to the supporting report or dataset.

Economy	10	Life Sciences	4
Energy	2	Environmental	4
Agriculture	3	Trade	2
Transportation	2	Technology	1
Public Safety	1	Education	2

A curated source set - not the open web

AskAI Plus answers from the BCC library and the 31 vetted sources. It does not pull from the open web. More sources are being added on an ongoing basis.

SOURCE GUIDE

Economy, life sciences, energy & environment

Each category below lists the sources currently used by AskAI Plus and the type of public data they add to an answer.

Economy

10 sources

Sources: World Bank, U.S. Census Bureau, BLS, BEA, OECD, Eurostat, IMF, Census IDB, UN Data, Our World in Data.

GDP, jobs, population, spending, and prices - the backbone for sizing a market or checking a growth rate.

Life Sciences

4 sources

Sources: ClinicalTrials.gov, WHO GHO, CDC, openFDA.

Trial activity, disease burden, drug and device records to support healthcare numbers with clinical and regulatory data.

Energy

2 sources

Sources: EIA, IRENA.

Production, consumption, and renewables capacity to ground energy answers in actual supply figures.

Environmental

4 sources

Sources: EPA AQS, NOAA NCEI, USGS Earthquakes, USGS Water.

Air quality, climate, water, and seismic data for environmental risk or resource exposure.

SOURCE GUIDE

Agriculture, trade & transportation

Each category below lists the sources currently used by AskAI Plus and the type of public data they add to an answer.

Agriculture

3 sources

Sources: USDA NASS, USDA AMS, EU AgriFood.

Crop, livestock, and food pricing across the U.S. and EU to bring commodity data into agriculture and food answers.

Trade

2 sources

Sources: UN Comtrade, USITC.

Import and export flows and tariffs to show how goods move across borders behind a supply-chain question.

Transportation

2 sources

Sources: BTS, AFDC.

Freight, travel, and alternative-fuel infrastructure to support logistics or mobility answers with federal data.

SOURCE GUIDE

Technology, public safety & education

Each category below lists the sources currently used by AskAI Plus and the type of public data they add to an answer.

Technology

1 source

Sources: EPO Patents.

European patent filings to check who is filing what before making a technology bet.

Public Safety

1 source

Sources: FBI Crime Data.

U.S. crime statistics for markets tied to security, insurance, or public policy.

Education

2 sources

Sources: Education Data (Urban Institute), UNESCO UIS.

Enrollment, spending, and outcomes across the U.S. and globally to size education or workforce markets with the public record.

The source set keeps growing

More vetted sources are being added on an ongoing basis.
