Using the Platform

Finding Reports

Search

- Use the search bar at the top to search by keyword, technology, or industry
- Browse by "My Categories" by clicking into each category and expanding
- Filter search page results further by using advanced search: filter by year, search in title, or specific category

Downloading Reports

- Locate the Downloads section on the report page to access
- To download specific content, navigate to the Lists & Figures section on the report page. From there you can select individual tables, figures, or both to download
