TECHNOLOGIES	31
NEW DEVELOPMENTS	31
National High-Technology Research and Development Program (863 Program)	31
Scientific Research Projects in 10 th Five-Year Plan Period (2000 to 2005).....	31
Study for Key Technology and Equipment for Batch Forming of Ceramics Parts With High Reliability	31
Preparation and Application Technology for Large Dimension Advanced Ceramics Parts	32

Study and Development for High End Bone China Toughened by Zirconia Oxide	32
Ceramics Filter for Purifying High Temperature Gases in Advanced Power Plants Using Clean Coals	33
Self-Toughening Silicon Nitride and Preparation Technology of its Ceramics Rollers.....	33
Novel High Performance and Low Cost Multilayer Ceramic Capacitors Materials and Process	33
Research and Development for Novel Microwave Medium Ceramics Materials and Devices	34
2006 Scientific Research Projects.....	35
Low-Cost and High-Performance Inorganic Nonmetallic Materials	35
Passive Electronic Components and Integration Technology	35
Advanced Preparation Technology.....	35
National Key Project of Scientific and Technical Supporting Programs in 11 th Five-Year Plan (2006 to 2010)	35
Key Technology and Equipment for Environmental- Friendly Manufacture of Ceramic Tile	35
PATENT ANALYSIS.....	36
<i>TABLE 10 MAJOR CHINESE PATENTS RELATED TO ADVANCED CERAMICS</i>	36
<i>TABLE 10 (CONTINUED)</i>	37
Method of Gas Phase Deglue Pretreating for Gel Injection Molding Ceramic Blank	37
Liquid Phase Pretreatment Method for Gelcasting Ceramic Blank before Binder Burning Out	38
Novel Vacuum Degassing Method for Gelcasting Ceramic Slurry	38
Ceramic Bead Preparation Process and Apparatus.....	39
Testing Method of Ceramic Suspended Matter Gelating Point and Device.....	39
Sizing Material-Forming Method of Ceramic Parts.....	40
Isostatic Compaction Method for Preparing Quartz Ceramic.....	40
Process for Preparing Ceramic Filter Element with Desulfuration Function.....	41

Method for Producing Large-Aperture Porous Ceramic Element.....	41
Method for Preparing Porous Ceramic by Polycrystalline Al ₂ O ₃ Fiber Preforming Method	42
Method for Preparing Al ₂ O ₃ Porous Ceramic with High-Strength and High-Heat Stability	42
Process for Preparing Gradient Porous Ceramic Filter Element.....	43
Self Toughening Silicon Nitride Ceramic Guide and Guard Roller and Its Preparing Method	43
Precision Rolling Material of Self-Flexible Silicon Nitride Ceramic Wire Rod and Preparation Process Thereof	44
Low-Temperature Sintered and Temperature-Stable Multilayer Ceramic Capacitor Dielectric Materials	44
Thin Crystal Base Metal Internal Electrode Multilayer Ceramic Sheet Type Capacitor Medium Material	45
Multiple Layered Sheet Structured Ceramic Capacitor Suitable to Middle and High Voltages	45
Multiple Layered Sheet Structured Ceramic Capacitor in Use for Middle and High Voltages.....	46
Ceramic Material of Middle-Low Temperature Sintered Temperature Stable Type Multilayer Ceramic Capacitor.....	46
Ultra Thin Temperature Stable Type Multilayer Ceramic Capacitor Dielectric Material and Its Sintering Process.....	47
Basic Metal Electrode Multilayer Ceramic Capacitor Medium Material and Its Preparation Method	47
Multilayer Ceramic Capacitor Material with Ultra-High Dielectric Constant and Temp Stability and Its Preparing Process.....	48
Dielectric Material for Thermostable Laminated Ceramic Capacitor with Basic-Metal Inner Electrode	48
Mesomeric Electric Constant Laminated Microwave Dielectric Ceramic and Producing Method Thereof.....	49
Microwave Dielectric Ceramic with Low-Dielectric Coefficient	49
Low-Loss Microwave Dielectric Ceramic.....	50
Microwave Medium Ceramics with a High-Dielectric Constant	50
Microwave Dielectric Ceramic	50
Microwave Ceramic Medium and Its Preparing Process.....	51
Ceramics as Low-Loss Microwave Medium.....	51
Microwave Medium Ceramics with High-Dielectric Constant	52

Lithium Manganate Positive Electrode Material of Laminated Pole Structure for Lithium Ion Cells, and the Method for Intercalation Assembling And Preparation Thereof.....	226
Method of Preparing High-Lithium Ion Content Laminated Lithium Manganate Anode Material	226
Anode Material Lithium Ferric Phosphate Containing Oxygen Vacancy in Use for Secondary Battery of Lithium Ion, and Application	227
Punched Steel Belt for Power Battery Plate	227
R&D LEADERS.....	228
General Research Institute Nonferrous Metals	228
MGL New Materials Technology Institute.....	228
COMPANY PROFILES	229
DOMESTIC LEADERS.....	229
Emei Semiconductor Materials Plant and Institute	229

Luoyang China Silicon Hi-Tech Corporation	230
Renesola Ltd.	230
Trina Solar	231
Jiangxi LDK Solar Hi-Tech Co., Ltd.....	231
CITIC GUOAN Mengguli Corporation	232
Hunan Reshine New Material Co., Ltd.	232
Beijing Easpring Material Technology Co., Ltd.	233
Pulead Technology Industry Co., Ltd.	233
Shanshan Tech Group	234
BTR Energy Materials Co., Ltd.	235
Zhangjiagang Guotai-Huarong New Chemical Materials Co., Ltd.	235
Tianjin B&M Science and Technology Joint-Stock Co., Ltd.....	236
Tianjin Jinniu Power Sources Material Co., Ltd.....	236
KEY INTERNATIONAL PLAYERS.....	237
Baotou Santoku Battery Materials Co. Ltd.....	237
NANOMATERIALS.....	238
INTRODUCTION AND DEFINITIONS	238
MARKET FOR NANOMATERIALS	238
SUMMARY	238
<i>TABLE 52 PROJECTED NANOMATERIALS IN CHINA, THROUGH 2012 (\$ BILLIONS)</i>	239
<i>FIGURE 6 PROJECTED NANOMATERIALS IN CHINA, THROUGH 2012 (\$ BILLIONS)</i>	239
MARKET DYNAMICS	240
Market Dynamics (Continued).....	241
APPLICATIONS	242
<i>TABLE 53 MAJOR APPLICATIONS/END USERS OF NANOMATERIALS</i>	243
TECHNOLOGIES	243
NEW DEVELOPMENTS	243
National High-Technology Research and Development Program (863 Program)	244
Scientific Research Projects in 10 th 5-year Plan Period (2000 to 2005).....	244
Preparation and Application of the Composite of High-Performance Aromatic Poly- Disulfide/Nanographite.....	244
Super-High Density Information Storage Materials and Technology	244
Research and Development for the Nanocathode Materials Used in Large Capacity and Large Power Li-Ion Cell	245

Solid Nanocrystalline Dye Sensitized Solar Cell.....	246
Special Functional Fiber and Its Products with High Polymer Base.....	246
2006 Scientific Research Projects.....	247
Nanoelectronic/Photonic Materials and Components	247
Nanomaterials and Components for Early Diagnosis and Therapy for Dread Disease.....	247
Nanomaterials and Technology for Environmental Protection and Resource Conservation.....	247
Nanomaterials and Components for Energy Saving/Energy Storage/Novel Energy Usage.....	247
Technologies for Preparation, Machining, Evaluation of Nanomaterials, and Components, and the Research and Development for Related Equipment	248
The National Basic Research Program (973 Program) in 2006.....	248
Basic Research for Nano-Sized Silicone Integrated Circuit Devices and Process Main Study Contents:.....	248
PATENTS ANALYSIS	249
<i>TABLE 54 MAJOR CHINESE PATENTS RELATED TO NANOMATERIALS</i>	249
<i>TABLE 54 (CONTINUED)</i>	250
Bipolar Plate Composed of Aromatic Polythioether/Nanographite, and Preparation Method.....	250
A Modified Lithium Ion Battery Cathode Material, Cathode, and Battery.....	251
Modified Method for Lithium Ion Cell Negative Electrode Material	251
Process for Modifying Cathode Material of Lithium Ion Cell.....	252
Low-Temperature Process for Preparing TiO ₂ Nanocrystal Porous Film Electrode.....	252
Electrode Pair of Dye-Sensitized Nanocrystal Thin Film of Solar Cell	252
Method for Preparing Nanoplatinum Carried Catalysis Electrode in Nanocrystal Sensitized Solar Battery	253
Method for Preparing Titanium Dioxide Nanocrystalline, Light- Scattering, Thin-Film Electrodes	253

Process for Preparing TiO ₂ Nanocrystalline Porous Film Electrode by Low-Temperature Electrophoresis Sedimentation	254
Method for Preparing Nanoparticle-Modified Chemical Fibers	254
Preparation Method of Nanometer Microgranule Modified Polyacrylonitrile Anti-Static Fiber	255
Method for Preparing Nanoparticle Reinforced, Toughened Ultra-High Relative Molecular Mass Polyethylene Fiber	255
Method for Preparing Normal Pressure-Dyeable Fine Denier Polypropylene Fibers Having Dispersed Nanometer Grade Phase.....	256
Method for Cross-Blending Resin for Stainable Fine Denier and Fabrication	256
R&D LEADERS.....	257
The National Center for Nano Science and Technology (NCNST) of China	257
China National Academy of Nanotechnology & Engineering	257
National Engineering Research Center for Nanotechnology	258
COMPANY PROFILES	258
DOMESTIC LEADERS.....	258
