SELECTED PATENTS .....	110
PATENTS COVERING OPERATIONS SUPPORT SYSTEMS .....	110

Patent 6,718,377: Telecommunications network management system interface.....	110
Patent 6,707,907: Digital-cross-connect system single element restoration technique.....	110
Patent 6,052,382: Configurable mediation devices and systems.....	110
Patent 5,724,263: Automatic temporospatial pattern analysis and prediction in a telecommunications network using rule induction.....	110
Patent 5,623,541: Apparatus to manipulate and examine the data structure that supports digital analysis in telecommunications call processing.....	110
<b>PATENTS COVERING DIGITAL SUBSCRIBER LINES (DSL) .....</b>	<b>110</b>
Patent 6,819,746: Expert System for Loop Qualification of xDSL Services.....	110
